## Welcome to DNMIET, Lucknow

Welcome to DNMIET, Lucknow The institute aims at providing quality education to all its students in all branches of Science, Engineering, IT technologies, to prepare the students for employment. At DNMIET, Lucknow you will find new experience in a dynamic and disciplined academic environment with new ideas and insight that will take you to greater heights in realizing your dreams.

Our programs offered are designed to be conceptually comprehensive and geared toward individuals seeking a solid foundation of knowledge and skills required to succeed in their chosen career. Our academic programs are not only highly rated against international standards but are also streamlined according to the requirements of the industry and placement organisations. The classrooms, laboratories and equipment are industry-current and the instructors are dedicated professionals in their area of expertise. The programs are relevant to employers' needs and focus on areas that offer long term employment and growth opportunities.

DNMIET, Lucknow will forge to build up academic ties with both Indian and foreign institutions of excellence to ensure continuous update of structure, content and delivery of our programs. It is our belief that a value based learning will have far greater relevance in an ever changing work environment. This object is achieved through the vibrant and skilled faculty inducted from the academia and industry. Their missionary zeal for teaching and shaping the career of DNMIET, Lucknow students' will ensure a promising and brighter future. The culture of DNMIET, Lucknow is one of openness, a mutual trust and faith with a sole mission to demonstrate the imminent commitment to learning.

The educational philosophy at DNMIET, Lucknow is based on delivering personalized quality education to each and every student. Students are provided with an encouraging and supportive environment conducive to learning and growth, both personally and professionally. Ragging is a punishable offence under the law as per the order of Hon'ble Supreme Court of India, State government and AKTU.

## The Chairman's message

It is said and also experienced that intelligent quotient has been improving from generation to generation and the present generation is too smart to grasp any new idea be it technical or otherwise. This is partly due to the changing environment, very rapidly changing technology and shrinking of the vast world to a global village. The hunger and thirst for knowledge is very tremendous in the new generation.

Not only this, the present generation is very conscious about the future. It wants to tread the path of its own choice and is generally reluctant to head to the elders advice. In above scenario it is evident that the young generation needs quality education in knowledge friendly environment which will meet their expectations. The grooming of brain along with the grooming of heart of each and every student is prime objective of DNMIET, Lucknow.

## Why DNMIET, Lucknow

DNM Institute of Engineering & Technology is promoted by the "Shri Dineshwar Mishra Ji Memorial Servjan Educational Vocational and Development Trust-. The trust members have a rich and varied experience in the govt., industrial and educational fields. All the trustees are engineers themselves, that's why they are having in -depth and sound knowledge about this field.

The main objective of the trust is to provide education in all the fields and to open research centre for the advancement and propagation of education, charitable and other allied services for the promotion and help of mankind.

We aim to offer world- leading expertise and innovative learning in every area of today's competitive world. We aspire to provide an education system that looks beyond employment and concentrates of foundation for life time of professional as well as personal development.

We aim to be the most progressive institution, recognized for the relevance, innovation and responsiveness of its teaching and learning, research, partnerships and collaboration. We strive to produce graduates who can be easily employed and accepted in national and international market.

We recognize the potential of students and contribution they can make in the global workplace and it's our endeavour to make high quality relevant education available to the maximum number of students. DNMIET, Lucknow endeavours to be torch bearer for innovative education, using modern research, introducing subjects globally aligned to emerging markets and industries. The campus promises to be your guiding light.

The institute campus is made homely for the students who will be free to approach the Director and faculty members for any problem Care has been taken to make their stay comfortable and memorable. We wish bright and shining future for our students
